- Programming Languages: PHP, Java, JavaScript, SQL
- Web Development: HTML5, CSS3, React, REST APIs, Laravel
- Databases: MySQL, Supabase (BaaS)
- Tools & Platforms: Git/GitHub, VS Code, Claude, ChatGPT
- Basic Troubleshooting

EXPERIENCE

IT Intern

March 2026 – May 2026

Tecson-Dulalia Medical Health Services Inc. — Cavite, Philippines

- Collaborated with healthcare staff in encoding and updating patient information in the organization's system, ensuring accurate and organized patient records for efficient data retrieval and management.
- Collaborated in Development of Content Management System (CMS) using React.js, improving interface usability and responsiveness.
- Registered patients for PhilHealth YAKAP services and assisted with registration concerns, ensuring proper and timely processing.
- Processed PhilHealth documents and forms, ensuring complete and organized documentation.

PROJECTS

Health Center Information Management System

Capstone Project

- Collaborated on system architecture, workflows, and database design
- Developed responsive user interfaces using HTML, CSS, Bootstrap, Tailwind CSS, and JavaScript, improving usability across devices.
- Built full-stack medicine inventory and reporting features using Laravel Livewire, streamlining stock monitoring and report generation.

Flower Shop E-Commerce System

Group Project

- Developed backend functionality for an e-commerce flower shop using PHP, supporting core shopping operations.
- Implemented session- and database-based add-to-cart functionality, enabling reliable cart management.
- Designed and managed MySQL schemas for users, products, carts, and orders, ensuring organized and efficient data management.

EDUCATION

Bachelor of Science in Information Technology

Aug 2022 – Aug 2026

Cavite State University – Trece Martires City Campus

Magna Cum Laude

CERTIFICATIONS

- DICT Course Completion
